IFCC PROFESSIONAL EXCHANGE PROGRAMME

IFCC offers a small number of scholarships each year to facilitate professional exchange programmes for young scientists. The purpose of professional exchange programmes is to:

- Promote international co-operation between laboratories
- Facilitate the exchange of young laboratory scientists between IFCC Member societies
- Share high level scientific or management skills
- Introduce new or improved scientific or management skills to the applicant's laboratory

IFCC has developed two categories of professional exchange programme:

- **Professional Scientific Exchange Programme (PSEP)**
- **Professional Management Exchange Programme (PMEP)**

IFCC PROFESSIONAL MANAGEMENT EXCHANGE PROGRAMME (PMEP)

The purpose of a PMEP is to develop appropriate quality management skills in order to improve the performance and quality of service offered to patients by the base laboratory.

Applications for a Professional Management Exchange Programme (PMEP) may only come from IFCC Full Member or Affiliate Member national societies that are in countries where quality management and/or laboratory accreditation are at an early stage of development.

Examples of PMEP include:

- Acquiring skills to introduce effective internal quality control;
- Acquiring skills to introduce an external quality assurance scheme to a country;
- Acquiring skills to introduce quality management to the base laboratory;
- Preparation to enable the base laboratory to apply for laboratory accreditation in line with ISO Standard 15189;

The host laboratory for a PMEP will normally be in the same IFCC Region as the applicant.

PROFESSIONAL SCIENTIFIC EXCHANGE PROGRAMME (PSEP)

The purpose of a PSEP is to exchange or develop high level scientific information or skills.

Applications for a PSEP may come from any IFCC Full Member or Affiliate Member national society.

Examples of suitable PSEP projects include (but are not restricted to):

- Conduct of a collaborative research project between base and host laboratories;
- Use of a method or technique not available in the base laboratory in order to complete a research project;
- Learning a new method or technique in the host laboratory which will be introduced into the base laboratory after the PSEP is complete;
- Completion of a collaborative evidence-based scientific project such as the preparation of a systematic review;

Scientific publications resulting from this exchange programme have to acknowledge IFCC's support.
