# **C-CMBC COURSE FEED BACK FROM PARTICIPANTS**

**2009: Damaskus, Syria**

**Participant: Hani Rostom ([sales@biorus.net](mailto:sales@biorus.net)):**

- 1. Why were you interested in this theoretical and practical course?** to know more about the products that I'm selling.
- 2. Which is your academic background and where are you working now?** biomedical engineer - Managing director for ( Biorus syria- Biorus dubai - Babirus Dubai) companies.
- 3. Have you ever applied molecular biology techniques such as PCR? If so, which technique/s have you applied, and what have you done with them?** I did for real time PCR for viral load and reverse hybridisation for genotyping 2010.
- 4. Have you ever heard about molecular biology techniques applied to diagnosis before the course? Where did you hear about them?** yes,.. exhibitions
- 5. What were your expectations for this course? What did you want to learn from this course?** Was good but far from the new technology like microarrays but as basics was good.
- 6. Did the course fulfilled your expectations or not? Do you think that it was useful or not?** was good and was useful.
- 7. Could you apply your skills acquired during the course, or you haven't had the opportunity yet?** Yes in 2009-2010.
- 8. We appreciate any suggestion in order to improve our theoretical and practical teaching around the world?** I think more practice about real time PCR and sequencing.

**Beginner's Course in Molecular Diagnostics  
Committee-Clinical Molecular Biology Curriculum  
(C-CMBC-IFCC)**

**December 7<sup>th</sup> - 9<sup>th</sup>,  
Damaskus, Syria, 2009**
