ACHIEVEMENTS OF FLM ASSOCIATION

The draft of the order of the Russian Ministry of public health “On approval of Regulations for clinical and laboratory research” has been prepared.

14 clinical recommendations were developed and delivered to the Russian Ministry of public health meanwhile 9 of them were included in the Federal electronic medical library.

“FLM” Association became an expert organization for the accreditation of activities in the fields of «Clinical laboratory diagnostics», «Bacteriology», «Virology», «Laboratory genetics» in the framework of the system of continuous medical education.

Amendments have been made to the legislation with the participation of “FLM” Association:

- To the order No 1 157 n of the Russian Ministry of public health dated March 16, 2010 “On approval of maximum permissible quantity of narcotic drugs, psychotropic substances and their precursor contained in the medicines”;
- To the articles 6.9 and 20.20 of the Administrative Offences Code (on medical examination in the state of alcoholic intoxication);
- To Annex to the order No 1 1664 n of the Russian Ministry of public health dated December 27, 2011 “About the statement of the nomenclature of medical services” (Over 1000 laboratory tests were included).

The Federal Manual on laboratory studies (FSLI) has been developed.

The professional standard was developed for the experts in the field of clinical laboratory diagnostics.

The professional standard “doctor-biochemist” was developed.

The list of questions was developed for assessment of experts for qualification category in the following specializations: “Clinical laboratory diagnostics”, “Bacteriology”, “Laboratory genetics”, “Virology”.

Development and assessment of the medical products catalogue for in vitro diagnostics.

Examination and calibration of standards for medical aid in the field of laboratory research.

Development and examination of evaluation tools for accreditation of clinical laboratory diagnostic specialists.

Development of standard programs for additional professional education in the field of clinical laboratory diagnostics.

Development of practical recommendations and methodical instructions in various activities of laboratory medicine.

The printed edition of “FLM” Association - “Laboratory service” magazine was included in the list of the leading peer-reviewed scientific journals of the Supreme Assessment Commission (VAK), it was also included in the bibliographic and synopsis database SCOPUS.

Legal assistance was provided to FLM Association members on 353 requests.

“FLM” Association was involved by the State Antimonopoly Service in the discussion on the limitation of use of closed systems in laboratories.

Cooperation agreements were concluded with professional organizations such as,

- Russian association for medical laboratory diagnostics (RAMLD);
- Federal center for project financing (FCPF);
- National association for medical informatics (NAMI);
- Public Association “Federation of laboratory medicine”, Republic of Kazakhstan, Astana (FLM LLC);
- Contract information bureau;
- “OPORA zdorovyа”
- League of participants in medical products circulation (LUSOMI);
- Association of international manufacturers of medical products (IMEDA);
- Yandex
